

## **Planning Committee for AZENET Conference on Cultural Competency and Evaluation**

Would you like to help the Arizona Evaluation Network plan our next conference which will be on Cultural Competency? A planning committee is currently discussing:

- What are some of the most important issues in designing/conducting a culturally competent evaluation?
- How can we build on our existing knowledge and success?
- How can we best increase our ability to work effectively and respectfully with different populations?
- What skills and knowledge would have the greatest impact in our work?
- What is the difference between cultural humility and cultural competency?

If you are interested in joining the conference planning committee – please contact Cassandra O’Neill, President-Elect of the Arizona Evaluation Network at [cassandraoneill@comcast.net](mailto:cassandraoneill@comcast.net) or (520) 403-0687.
